INT-CL (IPC): G06F015/60 , H01L021/82

ABSTRACT:

PURPOSE: To obtain an area quotation system so that the applicability of an LSI or a printed circuit board can be judged in an early stage of design by means of a block diagram.

CONSTITUTION: The system consists of a block diagram input means 2 inputting the block diagram, a block size quotation means 3 quoting the size of each block, an aspect ratio quotation means 4 quoting an aspect ratio from the function of the block, a block area designation means 5 designating a block area on the LSI or printed circuit board while referring to the quotation result, a connection relationships display means 6 displaying the connection relationships between designated area and blocks, and a block area output means 7 outputting the area as information.
